

ICARUS - TRANSMITTERS

TX Heavy

TX HEAVY

The TX Heavy, as the large transmitter of the ICARUS family, is used in all areas in which a high level of reliability and operational safety can be achieved.

Equipped with an emergency shut-off switch, the remote control is appealing due to its long battery service life due to minimal power consumption and through a high level of connection safety.

The sturdy housing fits easily in the hand, is resistance to dirt and water and operation with gloves is no problem.

Different models with two to fourteen buttons cover a wide spectrum of possible applications.
